

Van Nguyen

Senior QA Automation Engineer | Quality Engineer

Ho Chi Minh City, Vietnam | vanphi313@gmail.com | linkedin.com/in/van-nguyen-qavn1997

PROFESSIONAL SUMMARY

Senior Software QA professional with 7+ years across E-commerce, Fintech, Healthcare, and Digital Products. Specializes in Playwright automation frameworks, API test systems, CI-integrated quality pipelines, and AI-assisted testing. Focused on shift-left quality, risk-based testing, and scalable quality engineering.

CORE SKILLS

- Playwright (TypeScript/Java), Selenium, Katalon Studio, POM architecture, parallel execution
- RESTful API testing, Postman, Ajv schema validation, Burp Suite, SQL (PostgreSQL, MySQL, SQL Server)
- GitLab CI/CD, Jenkins, Allure reporting, continuous testing, environment management
- Risk-based testing, shift-left QA, root cause analysis, BDD/Cucumber, JMeter performance testing
- AI-assisted test design, Cursor/Codex, quality metrics automation

PROFESSIONAL EXPERIENCE

Senior Full-stack QA | Elfie Health

May 2025 - Present

Leading quality for Web and Mobile with framework-first automation.

- Built Playwright + TypeScript framework from scratch with POM, utilities, and environment management.
- Integrated Allure/HTML reporting and GitLab CI/CD for regression cycles.
- Applied BDD with Cucumber; requirement analysis and risk identification.

Senior QA | ShopeeFood

Nov 2023 - Apr 2025

Payment systems quality across ShopeePay, vouchers, and partner promotions.

- Automated regression with Selenium Java, API testing, and SQL validation.
- Validated CyberSource, MoMo, VNPAY, and Internet Banking payment flows.
- Exploratory and UX testing on promotion and voucher systems.

Senior QC | Tiki Corporation

Jan 2022 - Oct 2023

E-voucher platform and Ticketbox quality with automation and performance testing.

- Built API automation with Postman and E2E flows with Selenium.
- Performance testing with JMeter on critical commerce journeys.
- Led small-team task assignment, timeline control, and release reporting.

QC Engineer | MoMo E-Wallet

Mar 2021 - Nov 2021

Trust-sensitive fintech: eKYC, face matching, and wallet features.

- System, integration, GUI, and A/B testing for mobile wallet flows.
- Backend data validation with SQL across authentication journeys.

QC Engineer | Kyanon Digital

2018 - Feb 2021

Multi-project QA with early automation and SDET process adoption.

- Delivered QA for Samsung, Nippon, Our Better World, and NgayDauTien.
- Implemented SDET processes; automation with Selenium and Katalon Studio.

SELECTED PROJECTS

- Playwright E2E Framework - Seller Platform (195 commits, 57K+ lines, 11 API domains, GitLab CI/ReportPortal)
- Playwright Automation Framework - Elfie Health (POM, API layer, Ajv, Allure, GitLab CI/CD)
- Payment Systems Validation - ShopeeFood (ShopeePay, voucher packages, Selenium Java + SQL)

EDUCATION

Bachelor of Information Technology

Ho Chi Minh City University of Technology and Education (HCMUTE)

Faculty for High Quality Training (CLC) | 2015-2019 | GPA ~7.48/10

CERTIFICATIONS

- Playwright 101 & 102 - TestMu AI (2026)
- RESTful API Testing - TVN
- Scrum Master Certification - Axon Active (2018)

LANGUAGES

Vietnamese (Native) | English (Professional working proficiency)
